## **DETAILED ACTION**

### ***Drawings***

1. The drawings were received on September 24, 2004. These drawings are approved.

### ***Specification***

2. The disclosure is objected to because of the following informalities: the amendment to the paragraph on page 9, lines 11-25 is inconsistent with Figure 3. The paragraph describes step 50 as "testing for interference by sampling the RF channel" while Figure 3 which shows step 50 as "Receive data via transfer." Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 1, 11 and 21, it is unclear whether "a radio frequency channel" on lines 13, 12, and 22, respectively, is the same "radio frequency

channel" that is tested for sampled and tested for interference in claim 1, lines 6-7, claim 11, lines 5-6, and claim 21, lines 9-10, respectively. If they are referring to the same "radio frequency channel," "a radio frequency channel" on lines 13, 12, and 22, respectively, should be "**the** radio frequency channel." Otherwise, the Examiner suggests using "a **first** radio frequency channel" and "a **second** radio frequency channel" for clarification. Dependent claims 2-10, 12-20 and 22-30 are rejected for the same reasons as independent claims 1, 11, and 21, respectively

***Allowable Subject Matter***

6. Claims 31, 35-37, 40-43, 46 and 50 allowed.

7. The following is an examiner's statement of reasons for allowance: prior art of record does not teach or suggests in combination a method or system for selecting sub-carrier frequencies comprising determining the sub-carrier frequencies suitable for communication with a device through testing for interference by sampling a radio frequency channel without using a transmitted signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

9. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
